Pakistan's Largest Biannual Textile Industry Exhibition

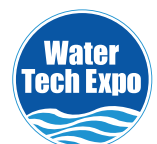

01-03 March
2024

*Karachi Expo centre,
Pakistan*

07-09 March
2024

*Quilim Marquee,
Faisalabad*

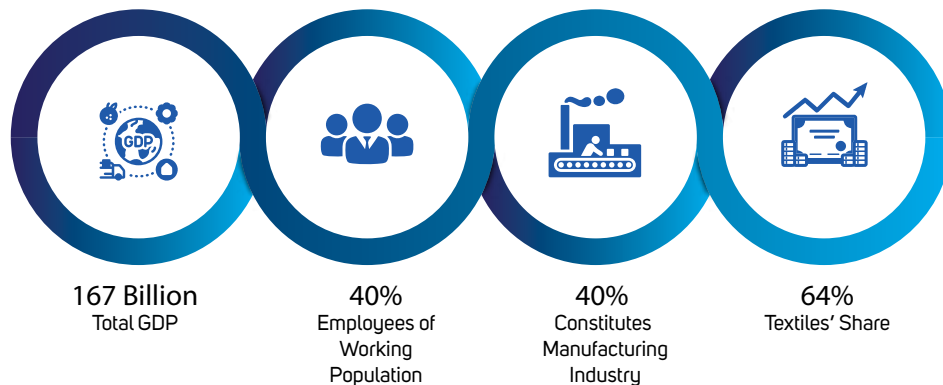

incorporating Event:

Pakistan the Regional Textile Hub

Textiles is the most important manufacturing sector of Pakistan and has the longest production chain, with inherent potential for value addition at each stage of processing, from cotton to ginning, spinning, fabric, dyeing and finishing, made-ups and garments.

Pakistan Textile General View

Pakistan Textile Industry Strengths

Installed Capacity of Textiles Sector

Sub Sector	Installed Capacity
Cotton Spinning	10,100,00 Spindles & 114,000 Rotors
Cotton Weaving	9,000 Power Looms
Hosiery	12,000 Knitting Machines
Towels	7,500 Looms
Art Silk & Synthetic Weaving	90,000 Power Looms

Pakistan Textiles Policy 2015-2023

- Vision: To become a leading country in the field of export of value-added textile products.
- Mission: To develop and implement a textiles policy, which ensures consistency, predictability & transparency in Government actions and programs, while building the reputation of the country as a reliable source of high quality textile goods.

Goals

- To double value-addition from \$1billion per million bales to \$2 billion per million bales in five years.
- To double textiles exports from \$13 billion per annum to \$26 billion per annum in next five years.
- To facilitate additional investment of \$5 billion in machinery and technology.
- To improve fibres mix in favour of non-cotton i.e. 14% to 30%.
- To improve product mix especially in the garment sector from 28% to 45%.
- SME sector will be main focus of attention to enhance growth in value-added products through support & incentives schemes.

Textile Asia

- Only UFI(Paris, France) approved International Textile Machinery & Allied Services Trade Fair of South Asia.
- Largest & Biggest Textile Machinery & Allied Services Trade Fair of Pakistan held in two largest industrial cities (Karachi & Lahore) annually.
- With 17 years history; Textile Asia is the Oldest Textile Machinery & Allied Services Trade Fair of Pakistan
- Owned & Organized by Largest Trade Fair Organizers of Pakistan, Ecommerce Gateway Pakistan Private Limited

Intensive Promotion Strategy

Textile Asia 2022 is expected to attract trade visitors of over 35,000 during the three days of the fair. A focused marketing effort is carried out on all major industrial sectors nationally and internationally & establishing strategic partnerships with associations and government bodies. The global Promotion campaign includes:

- Global advertising
- Social media initiatives
- Public relations
- Direct mail: print and online
- Dedicated promotions at global trade exhibitions
- Roadshows and presentations in key regions
- Special invitations to key buyers

The trade show owners Ecommerce Gateway Pakistan are also the owners of Yellow Pages of Pakistan since 1984. Providing greater access to all industrial and commercial businesses in Pakistan, increasing the number of Trade visitors to Textile Asia international Trade fair.

Highlights of 23rd Textile Asia 2022 March Faisalabad:

23rd International Textile & Garment Machinery Trade Fair represented national & international textile industry at Quilim Marquee on 26-28 March 2022. The Exhibition covered an area of 4,000 sqm. It served as a result oriented business platform because 85% of the visitor profile belonged to decision makers or key executives who influence decision making in B2B meetings.

23rd Textile Asia 2022 was inaugurated by Honorable Mr. Shaikh Shafiq Jhokwala (Chairman PRGMEA) along with Mr. Atif Munir Sheikh, President, Faisalabad Chamber of Commerce & Industry, Mr. Awais Nisar, Vice Chairman, Pakistan Yarn Merchants Association, Mian Muhammad Latif, Chairman Chenab Group, Dr. Khursheed Nizam (President) and Uzair Nizam (Vice President) Ecommerce Gateway Pakistan along with Foreign Delegates.

Massive Media Coverage

23rd Textile Asia 2022 received immense support from all major National and International print and electronic Media. Visit following link for Print Media Report:

Incorporating Events

CFT Asia:

CFT Asia (Clothing, Fashion Textile Asia) is one of the biggest fairs in its field in Pakistan. It will bring together yarn, fabric, trims and clothing manufacturers, retailers and designers. CFT is the essential sourcing event in Pakistan for buyers, R&D and product development specialists, designers, merchandisers and overseas sourcing professionals.

CFT Asia Trade Fair will be organized with the concept of attracting high profile manufacturers, exporters and importers from all over the world, CFT will take place with new concepts and latest designs and products to create the most effective business platform for the industry.

Dyestuff & Chemical Asia:

Dyestuff & Chemical Asia (International Dye and Textile Chemical Trade Fair), Pakistan's largest dyestuff Trade Fair will lead development trends across the sector, making way for huge local and foreign investments in the country with a focus on Chemical, Dyes & Pigments Industry's latest developments. The exhibits include New-tech digital printing products, high-tech energy-saving and emission-reduction equipments, low-carbon environment-protecting textile chemicals such as dyestuffs, pigments, intermediates, auxiliaries, etc.

Digital Printing Asia:

Digital Printing Asia (International Textile Printing Technology Trade Fair) is an exclusive platform for digital wide format, screen printing, textile printing, and signage and garment decoration.

The major exhibits include: Screen Printing, Screen Manufactures, Pre-Press and Design, Digital Wide Format Printing, Pad Printing, Embroidery, Sublimation / Transfer Printing, Inks, Cleaning Products, Chemicals and Adhesives, Substrates, Textile Printing, Garment Decoration, Promotional Products, Finishing and Trade Services.

Sewing Machinery Asia:

Sewing Machinery Asia (International Sewing Machinery & Accessories Trade Fair) is one of the largest professional sewing machinery shows in Pakistan. It is a platform to display new product and a bridge to connect upstream and downstream industry chain.

The exhibits include pre-sewing, sewing, and after-sewing equipment, CAD/CAM, spare parts and accessories which covers the whole garment production procedure. It will also feature increased level of technologies and value added range of equipments with electric-control devices, mini-lubrication, multi-function and high level of automation.

Embroidery Machines Asia:

Embroidery Machines Asia is the most comprehensive product showcase of the garments & textile sector of Pakistan, bringing together participants representing the entire cross-section and all stake-holders of the industry at a common platform.

The exhibits include Multi Needle Quilting Machine, Computerized Quilting Machine, Industrial Quilting Machines, Lock Stitch, Quilting Machine, High Speed Quilting Machine, Automatic Quilting Machine, Duvet Quilting Machine, Mattress Quilting Machine, Quilting And Embroidery Machine, Industrial Embroidery Machines, Multi Head Embroidery Machine, Computerized Embroidery Machine, Bobbin Winding Machine, Panel Cutting Machine, etc.

Laundry Asia:

The Laundry Asia has become the most highly awaited tradeshow in the industry. It provides a platform for all industry professionals and companies to come together on the show floor to share ideas, technologies, and networking. Laundry Asia is dedicated to machines, technology, products and services for laundry, ironing and textile cleaning. Competitiveness, efficiency and sustainability have become possible challenges today as they combine innovative services and technology ready to meet the market and generate progress. The Event become a unique showcase with an integrated offer that will bring together worldwide manufacturers with the most interesting solutions from companies from all over the world.

Water Tech Expo:

Water Tech Expo is a forum in which all areas for which water is a strategic resource are represented, such as the business world, administrations, irrigators, technology companies, laboratories, manufacturers of capital goods, managers of drinking and wastewater or desalination.

Its objective is, in addition to generating business, to be an international meeting point, a forum in which Pakistani companies show their technology to buyers from all over the world, both in the exhibition and in its practical application. Promote business and knowledge synergies for efficient water management, with a global vision.

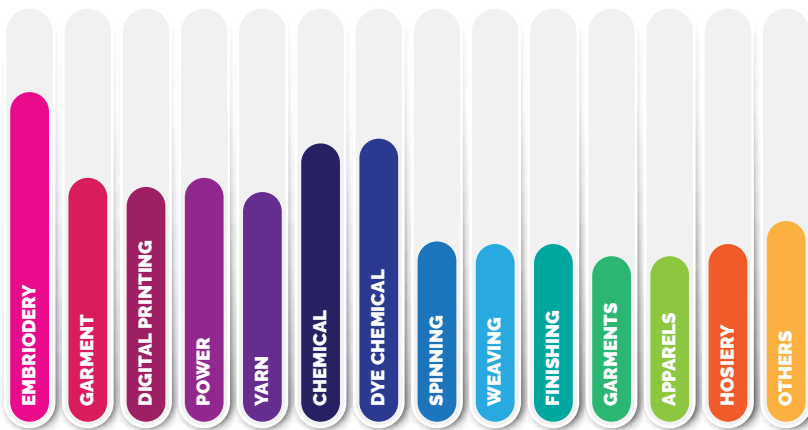

Solar Asia:

The world witnessed economic growth and prosperity since the industrial revolution mainly due to increased efficiencies in the use of better and higher concentrations of energy in fossil fuels. The excessive usage has comparatively increased the consumption rate of fossil fuel over its production, resultantly impacting human life and modern technological society which currently is heavily dependent on oil as a fuel. The development of the renewable energy sources is imperative to avoid complete dependence on crude oil and many countries blessed with renewable energy natural resources are rapidly turning towards clean fuel.

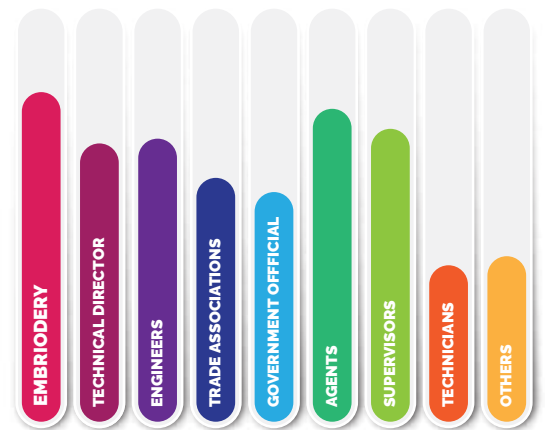

Pakistan is among such countries which is abundantly blessed by nature with renewable energy like wind and solar. Pakistan, being on the Sun Belt, is highly suitable for generation of electricity through solar. Global irradiation falling on the horizontal surface is about 1,800-2,200 kWh/m² per year. At current efficiency levels of 18% for solar modules this is sufficient to produce 0.320 to 0.400 MWh of electricity per m² per year (Source: German National Meteorological Service - DWD). With huge availability of sunlight, Sindh holds a great potential for extensive exploitation of solar energy for not only agriculture but also for the extensive use of environmental-friendly alternative energy for households. Sindh according to the wind data gathered by the Pakistan Meteorological Department (MET Department), the coastal belt of Sindh has huge potential for the development of wind energy projects. The 'wind corridor' of Sindh stretches from Keti Bandar to Gharo and is capable of producing 50,000 MW of electricity.

Solar energy source is widely distributed and abundantly available in Pakistan. With average 5.5-6 kWh/m²/day and about 1,800-2,200 kWh/m² per year radiation, Sindh has tremendous potential of harnessing this natural resource to produce 0.320 to 0.400 MWh of electricity per m² per year. With annual mean sunshine duration of 8 - 8.5 hours a day, it is estimated that this amount of energy is enough to electrify 40,000 villages. The solar-powered tube-wells/pumping machines for extracting underground water and land reclamation can be used to install in a water-logged and salinity-hit area besides using it for irrigation and drinking water usages. Due to huge availability of sunlight, Sindh holds a great investment potential for extensive exploitation of solar energy for not only environmental-friendly alternative energy for households, hospitals, schools and mosques.
